

Help protect your family from life's uncertainties. Prepare for the unexpected.

It's often difficult to imagine that one day your family members could benefit from your life insurance. You can enjoy security and peace of mind, knowing you can help meet your family's financial obligations even if you're not there to provide for them.

We know it's hard to plan for the unexpected. But we want to make it easy. By enrolling in Term Life Insurance through Greater Georgia Life (GGL), you are helping to secure your family's future. After all, isn't that what we ultimately live for?

How's this? For just a few cents per day, you can help provide your family with much needed financial support if you are not there to help meet financial obligations. Keep in mind that the proceeds of a life insurance policy are almost never taxed, so your family will be able to use the funds that you have left for them. Simply complete the term life section of your health plan coverage enrollment application. If you are accepted for health plan coverage, your life insurance premium will be automatically added to your Blue Cross and Blue Shield of Georgia (BCBSGa) monthly billing statement, making it easier for you to manage all of your insurance coverage. Check out the rates below.
